TURNING THE CORNER.
One day you turned the corner
And never knew you turned,
Until, far on your journey,
The bitter truth you learned.
One day you turned a corner
A-whistling jolly airs,
And you did not see the turning
Till you were elsewhere.
One day you turned a corner—
To you the road was straight;
But, ah! you missed the blossoms
When it was all too late.
That day you turned the corner—
Today you know the truth—
You left behind forever
The smiling vale of youth.

Cincinnati Couple Undergo a Second Marriage Ceremony.

The Commercial Tribune says considerable surprise was created Tuesday among the friends of Harry Root and Miss Nellie Brit, when it was made known that the couple had been married for more than a year.

The nuptial knot was tied again the other day according to the rites of the Catholic Church to overcome an objection of the parents of both parties on account of religious differences.

On February 25, 1902, Miss Brit and Mr. Root eloped to Maysville, where they were secretly married.

They returned immediately to Cincinnati and said nothing of the affair until it accidentally became known to Miss Brit's parents several days ago. The latter finally relented when the young couple consented to the second marriage by a Church ceremony.

The Cincinnati laundries have raised the prices for tearing your shirts to pieces.

The Cincinnati Water-works Commissioners were served with notice from the Building Trades Council that unless the men at work at the new Eastern Pumping Station were Unionized immediately the entire work would be declared unfair and all Union men will be called off. As the Labor Trust decrees that no Union man shall use any article produced by "unfair" workmen, it is to be presumed that hereafter no true Unionist will drink Cincinnati water, unless the new Pumping Station is built by Union labor.

FROM A Republican standpoint things are assuming an excellent shape in this state and assure a complete victory for the entire Republican ticket in November, provided a good, clean ticket, composed of the best men in the party, is put up. It is the contention of the old-time leaders that WILLIAM O. BRADLEY, who was elected Governor in 1895 over P. W. HARDIN, is the logical and strongest candidate who could be put forward by the Republicans, and, that with his well known qualities as a speaker and his fine ability for organizing, he could sweep the state.

Don't Wait Till It's Too Late—Follow the Example of a Maysville Citizen.

Rescue the aching back. If it keeps on aching, trouble comes. Backache is kidney ache.

If you neglect the kidneys' warning Look out for urinary trouble, diabetes. This Maysville citizen will show you how to go to the rescue:

Edward Oliver of 108 West Fourth street says:

"It did not require an entire box of Doan's Kidney Pills to entirely end backache which had troubled me for a considerable length of time. I procured the remedy at J. Jas. Wood & Son's Drugstore, corner of West Second and Market streets, and my advice to any one in need of a kidney cure is to try Doan's Kidney Pills, and they will not be disappointed at the results obtained."

THE Court of Appeals has just struck a cruel blow at the Damage Suit Industry. In a case from Bell county, it decides that a boy who attempts to jump on a moving train and has his foot crushed is not entitled to damages.

PRESIDENT JOHN MITCHELL of the United Mineworkers of America denies that he is the leader of a party of Union organizers, the object of which is to drive out of business employers of non-Union men. The report that a protest has been entered against awarding public contracts to companies using coal mined by non-Union men is also denied. If all the labor organizations of this country were presided over and controlled by such men as JOHN MITCHELL of the United Mineworkers and President ARTHUR of the Brotherhood of Locomotive Engineers, there would be a brighter day for the workmen. What is most needed is a weeding out of the high-salaried Walking Delegates and the Professional Agitators, who work overtime—with their mouths only.

The policy of exempting all property used directly for educational or for Church purposes—no matter how valuable that property may be—is too well settled and too equitable and right now to be seriously questioned. The majority of the people of the several states have acquiesced in the policy from the very beginning, and is not disposed at this late day to change it. But it is inevitable that abuses have crept in, and will creep in, with reference to holdings of property by any and by all denominations. But it is only when the fact of abuses is established that the Courts will interfere and compel an assessment of property which, not being used for Church nor for educational purposes, stands precisely on the footing of the property of the private citizen, and should bear its just proportion of taxation.

Dr. Salem P. Cope, a former prominent physician of Paducah, is dead at Springfield, Mo.

Dr. Sachas, an oculist of Vienna, has invented an apparatus by which the dark inner part of the eye can be perfectly illuminated.

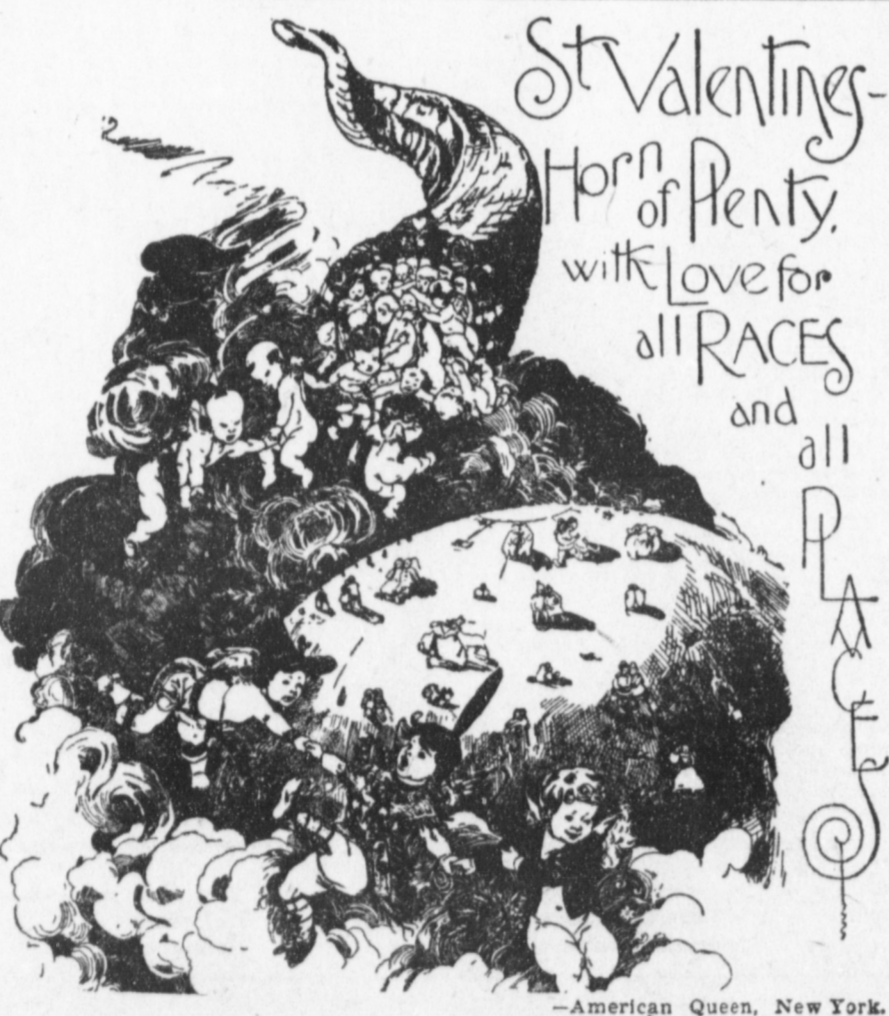

Frank Hersh of Baltimore claims to be the oldest Republican in the United States, having voted for the early principles of that party in 1852.

Willena McIntyre, aged 13 years, has been granted a divorce from William McIntyre at Jeffersonville, Ind. The marriage took place about a year ago when the plaintiff, then Miss Willena Kelly, was but little more than 12 years of age. The consent of her parents was obtained, but in her petition for divorce she alleges that she was not of an age to decide. The petition was granted on this plea.

Dr. Jameson's election to the Presidency of the South African League shows that he has lived down the bitter criticism which followed his unsuccessful raid.

W. A. Scott, General Manager of the Chicago, Minneapolis, St. Paul and Omaha Railroad, died yesterday. He had been ill for several months, and on Monday underwent a surgical operation.

The sweeping patent on the Brush electric storage battery has expired after acting as a barrier for 17 years against the production of any similar motive power. The patent, which was granted to Charles S. Brush of Cleveland, O., in 1888, was so broad that improvements on a similar line had no chance. Experts say the first results will be the manufacture of lighter and better batteries for motor cars, automobiles, etc.

Oliver

Gave to the world the Chilled Plow. The magical word Oliver is a guarantee of quality.

Mr. Oliver still controls the chilling process that has made the Oliver Plows so famous. Every genuine Oliver Plow Point or other repair has Mr. Oliver's name stamped upon it, and this name certifies that that piece is double chilled and will scour free and last almost twice as long as a part chilled in the imitation way. Notice one peculiarity of an Oliver Plow: Note this well, for it means much to you—An Oliver Point also includes the Cutter. When you put on an Oliver Point you have an entire new cutting surface; you virtually have a new plow. Upon other plows the point and cutter are separate, and you have to buy two parts at double the expense to secure a new cutting surface. Remember this, please: Oliver parts all fit nicely. An Oliver Point fits just as nice as the first one that was put on the plow. Oliver Mouldboards, Standards, Landsides all fit; your Oliver Plow works just as nicely when it is ten years old as it did the first year. We ask you to candidly say if this is the case with any other plow on earth. When you spend your money get all you can for it. The most value that a man gets in anything is an Oliver Plow. Oliver Plows are absolutely guaranteed.

WANT MORE JUSTICE.

Lexington Goebelites Appealed Case to Higher Court.

An election case that has long agitated the politics of Kentucky and enlisted the interest of lawyers throughout the country, has just reached the United States Circuit Court of Appeals, the record having been filed in Cincinnati yesterday morning.

It is the case of the United States vs. John J. McKenna and J. B. Ryan, and is an appeal from Judge Cochran's Court sitting at Frankfort.

At the general election of November 6, 1900, when state and National officers were to be elected, the defendants were officers of election at Lexington.

After the result was announced there were loud cries of fraud and intimidation and the Federal Grand Jury had its attention directed to the matter.

The defendants were indicted on two counts, one of allegedly intimidating and the other of obstructing the right of franchise of a number of colored voters.

In the second count it was charged that they opened the polls late, wrote the names of voters slowly, asked unnecessary questions, held pretended conversations and absented themselves from the polling place.

The trial occupied much time after a demurrer had been overruled that no offense against the laws of the United States was charged, and a verdict of guilty found. It is from this that an appeal is taken.

The defendants are men of prominence and the attorneys engaged among the leaders of the Bar, one for the defendants being former Governor W. O. Bradley.

The combine sent out four towboats Tuesday afternoon from Pittsburgh with coal—the Defender with 15 coalboats and 2 model barges; Iron Age with 10 coalboats, 2 model barges and 7 barges; Ed Roberts with 10 coalboats, 2 model barges and 7 barges, and James Moren with 10 coalboats, 2 model barges and 7 barges.

Captain Ben Cox, oldest pilot on the river, will celebrate his seventy-ninth birthday today at his home on the Utica pike near Jeffersonville. ACCIDENTAL?

The jury returned a verdict of accidental death on the man who fell from the window ledge on which he had fallen asleep. But the death was really due to carelessness which made the accident possible.

There are a great many lives suddenly terminated as a result of carelessness, although the medical certificate may read "heart failure."

When a man takes chances with his stomach and neglects the warning symptoms of disease, he is carelessly inviting calamity.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It enables the perfect digestion and assimilation of food, which makes strength. It stimulates the liver, cures biliousness, and removes bilious impurities from the blood.

"I had been troubled with a pain in lower part of my stomach for three years, so severe I thought it would kill me in time," writes Mr. Aaron Van Dam, of (Kensington) 2549 19th St., Chicago, Ill. "I could hardly work; it felt like a big weight hanging on me and got so bad that I had to take medicine. I used Stomach Bitters for a time, but it did no good so I wrote to Dr. R. V. Pierce for advice, which he gave me immediately. I followed his directions; used two bottles of his medicine and was cured. I had a torpid liver which was troubling me instead of cramps (as I thought), so Dr. Pierce told me. I have pleasure in living now; have gained in weight 15 pounds since then."

Dr. Pierce's Pleasant Pellets cure constipation. They do not beget the pill habit.

Alderman Frederick Hart of Chicago was twice indicted by the Chicago Grand Jury for malfeasance and soliciting a bribe. It is charged that he asked pay for favorable action on a building permit for a National Bank.

LESSON IN AMERICAN HISTORY IN PUZZLE

ALONG THE ERIE CANAL.

Plaid Gov. DeWitt Clinton.

Undoubtedly the greatest work of internal improvement undertaken in this country during the first quarter of the past century was the Erie canal. Work on this was begun on July 4, 1817, and the canal was completed and formally opened on October 16, 1825. At the time of its construction there was much opposition to it, and it was often ridiculed as "Clinton's big ditch." Gov. Clinton, of New York, being the instigator of the project. The work was done by the state of New York at a cost of \$7,500,000. On the day of its opening the tidings were conveyed from Buffalo to Albany by the discharge of cannon stationed ten miles apart, and a feature of the opening ceremonies was the passing of an aquatic procession from Albany down the Hudson to New York city.

This treatment alone often enables the consumptive to gather force enough to throw off the disease altogether.

The Stomach Is the Man.

A weak stomach weakens the man, because it cannot transform the food he eats into nourishment. Health and strength cannot be restored to any sick man or weak woman without first restoring health and strength to the stomach. A weak stomach cannot digest enough food to feed the tissues and revive the tired and run down limbs and organs of the body. I am now rounding up my twenty-third year in Maysville. During that entire time I have worked hard and incessantly to build a trade for first class goods and to establish and hold a reputation for honorable and fair dealing. My success in business has proved to me that I have not worked in vain. My business has steadily increased from the beginning. I intend to continue in the same old way. For your very liberal support year by year, for more sincere thanks and I most respectfully ask for a continuance of same. I want country people when in our city to visit my store and make it their headquarters. You are always welcome.

Remember, I run two delivery wagons, and it is always a pleasure to deliver goods.

LESSON IN AMERICAN HISTORY IN PUZZLE

THE FIRST AMERICAN LOCOMOTIVE.
Find Peter Cooper.

American railroad building dates from the year 1827 when a charter was granted for the construction of the South Carolina railroad. What was in reality the pioneer passenger railroad of this country was the Baltimore & Ohio. The first section of this was completed in the summer of 1830, and though it had been built as a horse car line, Peter Cooper, who had built a locomotive after his own plans, secured a trial of it on this line, and it proved a success. This locomotive was called the Tom Thumb. On November 2, of the same year, the South Carolina railway was opened for traffic with the locomotive, "Best Friend," as the motive power.
